YANKEE SYMPATHY, WITH FENIANISM.

However sincere Andrew Johnson may be in a desire to keep Fenianism within the legitimate bounds of international usages, or however much the acts of the Executive may bear the appearance of good faith and an honorable intention to enforce the neutrality laws according to their true spirit and intent, there is no blinking the fact that Fenianism, to a very great extent, enjoys the sympathy and good wishes of the American people, and that they would gladly have it play the part of the cat to the monkey, in drawing the chestnuts out of the mouth of the British lion—use it as a convenient instrument of revenge upon John Bull for their long catalogue of imaginary or pretended wrongs, arising out of the attitude assumed by Great Britain during the late civil war. The tone of the press of the Atlantic States, since Fenianism has assumed an active and aggressive form, is, as yet, unknown to us; but the California files which have just reached us would appear to indicate a very decided pro-Fenian feeling in the Pacific States. The *Flag*, a prominent daily, published in San Francisco, describes the Irish and Mexicans as "Ranged upon either side of our colossal Republic, aimed in the holy cause of liberty and drawing from our people that wholesome sympathy which their foes fear quite as much as they would an alliance of arms against them, and it may be in the wise and beneficent Providence of God that, while the Republic of Mexico is preserved from the shock of alien monarchy, and the liberties of its people made perpetual as the rugged mountains and pleasant valleys where they are nurtured; the Republic of Ireland, springing into full and perfect organization in the United States, and transplanted bodily to Canada, shall consecrate its soil to an Irish nationality so pure and so broad that, in its radiant atmosphere, the Green of the Lakes of Ontario and Huron for a symbol and earnest of Ireland's complete and everlasting regeneration."

The *Alta California*, the oldest and perhaps the most influential paper published on the Pacific, thus comments upon the recent movement upon Canada, and the extraordinary exhibition of Fenian sympathy in the House of Congress, recorded in our telegraphic news of last week:—"The fact that forty thousand stand of arms have already been seized by the Government is proof that the Fenians really meant work in Canada. It will be seen by our telegraphic advices that a motion was made in Congress for the repeal of the Neutrality Laws. This is the only way in which the subject can be divested of that tantalizing quality by which it is at present surrounded. The 'situation' now is briefly this: The American people wish the Fenians success, but at the same time, being a law-abiding people, cannot work at an infraction of the solemn acts of Congress."

When we heard of the resolution for the repeal of the neutrality laws of 1818 we were disposed to treat the matter with ridicule; but when a paper like the *Alta* comes out in language so plain and unequivocal it would not surprise us much to learn that there will be found in Congress a strong party willing to afford the Fenians every facility to get a slap at hated Britain. If the United States Government continues as it has commenced, and rigidly enforces the neutrality laws Fenianism will prove comparatively harmless; but if these laws should be repealed, and the sympathies of that powerful Republic openly extended to them, it would be difficult to estimate the consequences.

ANOTHER VERDICT SET ASIDE.

The dispute between the Aurora and Davis Companies, two well-known mining companies on Williams Creek, in respect of which an injunction was recently issued, was tried before Judge Begbie and a special jury, on Saturday, the 16th inst. It is already known that the jury returned a special verdict, submitting to the Court that the 130 feet in dispute should be divided between the Aurora and Davis Companies. This verdict appears to have given very general satisfaction, and forms the subject of a very sensible leader in the local paper, and in the course of which our contemporary says:—

"The celebrated case, Davis Co. vs. Aurora Co., has at last been brought to a close; and viewing the proceeding as a precedent in such cases, we are sure that the whole mining community look upon the concession made in this instance with satisfaction. There is probably no instance on record where a trial by jury has been so fully appreciated, and we trust that the feeling on the subject so universally expressed, will be respected in the proper quarter; it is possible that similar questions may soon be brought into court, and doubtless the same mode of procedure will be adopted. We are convinced that there is not a single miner on the coast that would not gladly submit his grievances to the decision of seven disinterested fellow citizens, and thus avoid the expensive and vexatious proceedings in Chancery.

"We must say we look upon this trial as a concession to the public sentiment, a fact that must cause much satisfaction to those who are likely to bring forward questions in our courts of law, as many litigants preferred suffering an immediate loss rather than incur the risk of running the gauntlet of the whole course from the Gold Commissioner to Chancery."

It is with extreme regret—a feeling which we are sure will be generally felt throughout the Colony—we learn that this verdict has been set aside by Judge Begbie!! It was close upon midnight when the jury agreed upon their verdict, and when the Court opened on Monday morning His Honor informed the Counsel that he would not receive it, but that if the parties to the suit would appoint him sole arbitrator he would settle the matter!! To this extraordinary and, we think, under the circumstances, delicate proposal the Counsel for the appellants readily agreed, the Counsel for the respondents stating that he could not act in the matter without first consulting his clients, and asking to have the case adjourned till the following morning in order that he might have an opportunity of so doing. The Court opened on Tuesday morning, at 10 o'clock, when the Counsel for the Davis Company stated that his clients most emphatically declined to enter into any such arrangement, whereupon the matter dropped, and the unfortunate dispute was thrown back where it was before, with this exception that the parties more immediately interested have had their pockets lightened of a few hundred dollars in time and law expenses—money which were better employed in developing the ground in respect of which it has been fruitlessly squandered. The special jury upon the case was obtained in this way: Forty-eight free miners were summoned, who, by the exercise of the right of challenge on the part of Counsel, were subsequently reduced to forty-three. From these forty-three the seven composing the jury were drawn. Thus it would appear that every precaution was used to obtain an intelligent and disinterested jury; and it also appears that every one felt confidence in the jury, and satisfaction at the verdict returned. We will not venture to indulge in any extended comments upon the conduct of the Judge, or the general bearing of that conduct upon the mining interests and popular temper of the country, as that may be better left till we are in possession of fuller details; but we cannot help expressing our conviction that the administration of justice (?) in this Colony is rapidly approaching an alarming climax, which the Executive would do well to anticipate.

Since the above was in type we have received an important dispatch from Cariboo, which will be found in another column, and to which we have only room to direct attention. We shall return to the subject on Saturday.

A CORRECT VIEW OF THE MATTER.

The Globe (Canada) is publishing a series of letters from the pen of a Victoria (Vancouver Island) correspondent. These letters indicate much ability, as well as an intimate acquaintance with the affairs of these Colonies. In one of these letters published in the Globe of the 11th May, the writer gives a succinct history of the rise and progress of the Colonies, under the Douglas régime, which he concludes thus: "In all this they (the people of Victoria) were greatly assisted by Governor Douglas, who was a large real estate in and around Victoria, and whose legislation was partial to Victoria." After disposing of their earlier history he says:—

In this manner the two colonies were created and kept separate, one enjoying perfect free trade and the other subject to a tariff of customs duties, averaging about 35 per cent., besides enormous road tolls. When however, as a separate colony, it was decided to establish a town near the mouth of the Fraser, as a port of entry and seat of Government for British Columbia, those who bought up the lots at once felt that it must become the rival of Victoria. A strong feeling of enmity has grown up between the two places, which resulted about two years since in obtaining a Government for each colony instead of, as before, one for both. A great many in Victoria now are sensible that in refusing union they made a great mistake. The collection of a large revenue in British Columbia proved easier than had been supposed, and amounts to about twice that of Vancouver Island. The trade in Victoria is every year decreasing instead of growing. The colony's debt is increasing daily, not because of public improvements, but because the cost of government is greater than the revenue. Our people have become so poor that the direct taxation is becoming intolerable, and I think a majority of the people would now be glad to be united to British Columbia, even if we had to abolish "free port" and adopt their fiscal system. About a year ago our Legislature acting under the conviction that it was the desire of the colonists to petition to the Home Government asking to be united to British Columbia on any terms, and if what we hear is true, they have been taken at their word, and very shortly, as a colony, we shall pass out of existence.

WHAT ABOUT NAVIGATION NOW?

The steamship Sierra Nevada, 1400 tons, steamed into our harbor on Sunday at three-quarters tide, without encountering the slightest difficulty. And why shouldn't she? Vessels drawing as much as 20 feet have entered our capacious harbor without touching ground, and the Sierra Nevada draws but ten feet. And yet this same steamer, in a rash attempt to enter Victoria harbor, scuttled, on Friday, stuck fast, where she remained in a most perilous position for several hours, the services of a steaming tug having been called into requisition to get her off! We presume we shall hear no more Victoria bluster about the comparative advantages of the two places as seaports. When it has been demonstrated that vessels drawing 20 feet of water can come here, and that it is only a six hours' run further than Victoria, we may well rest content with the accessibility and reputation of our port, and smile at all the slanders and misrepresentations which have emanated from the press of Victoria, respecting it. The absurdity of imagining that that town can ever hope to occupy the position of the chief seaport of the united colonies is now so fully apparent to all who are not stone-blind with self-interest.

THE MORGAN MURDER.—The Indian charged with the murder of John Morgan, last fall, has had his trial at Queen's wharf. The first jury being unable to agree was discharged, and the second jury returned a verdict of guilty. The prisoner confessed to having had a hand in the murder, but said another Indian was the principal. The Court passed sentence of death, but promised to state the case to the Executive, with a recommendation to mercy.

FROM YALE.—By Monday's steamer we have Yale papers of that date, containing, however, very little news beyond what has already reached us by telegraph. The Road Tolls for the week were \$1,842 84. The road to the cemetery has been put in excellent condition, an appropriation having been made by the Government for that purpose. The want of a Court House in Yale is complained of. A number of Chinamen, mining on the bars below Yale, were taken before the Sundry Magistrate at that town and fined for mining without licenses. The Tribune complains of "sharp practice" in collecting toll at the Alexandra bridge. It appears that the Collector doesn't return change.

ARRIVAL OF THE SIERRA NEVADA.—The mail steamship Sierra Nevada, Captain Williams, arrived here on Sunday, having left San Francisco on the 18th. She lay over at Victoria from Friday night till Sunday morning, and made the trip from that place in six hours and 20 minutes! She brought a few passengers and 130 tons of freight, chiefly for Mr. G. B. Wright, who came up by her. The Sierra Nevada sailed yesterday at noon for San Francisco, via Victoria, carrying down our mails and a few passengers.

EUROPEAN MAIL SUMMARY.

The last mail brings us English files to the 6th May, from which we glean the following:—

Several Fenian murders had been committed in Ireland, which caused a feeling of uneasiness, and formed the subject of enquiry. An attempt had been made by Fenians to murder Clifford, Acting Inspector of the Dublin Police.

A prize fight between Mace and Gos was arranged. The stakes were £200 a side.

In the House of Commons, Mr. Warkentin called attention to the termination of the Reciprocity Treaty between Canada and the United States, and moved a resolution expressing regret that the attempt to renew the treaty had failed. No division was taken.

The Italian Government has had recourse to the expedient of issuing £10,000,000 of inconvertible paper money to meet the expense of armament.

The attempted assassination of the Czar had led to numerous arrests at St. Petersburg, Moscow and Warsaw.

A steam vessel—the motive power of which is neither paddle nor screw—has just been tried upon the Thames, and successfully competed with both the present means of motion. The gunboat Waterwitch is to be fitted with the new propeller.

In the House of Commons on the 25th April, the bill abolishing the declaration of conformity to the liturgy of the Church of England by Fellows of Colleges, was passed through the committee by 208 against 186.

Next year the national debt of England will be decreased by about \$3,000,000 per annum, in consequence of the termination of an annuity that has been paid to the Bank of England since 1827.

Garibaldi has been dangerously ill of bronchitis for some months past, and his friends have been alarmed at his prolonged illness and slow recovery.

THE RETURN MATCH.

NEW WESTMINSTER VS CAMP AND SPARROWHAWK.

This match was played on Saturday, resulting in an easy victory for the New Westminister Eleven, with nine wickets to go down. The fielding of the New Westminister Eleven was excellent—a decided improvement upon that of previous occasions. The bowling and batting of Dr. Black and Mr. Bullock went far towards attaining the result. Mr. Kinscote and Mr. Bays, on behalf of the Camp and Sparrowhawk made a good stand, but the superior playing of the New Westminister Eleven soon told against them. The day was fine, and many witnessed the game. Luncheon was provided on the ground by the New Westminister Cricket Club. The following is the score:—

CURES AND COMFORT FOR

THE BED-RIDDEN

HOLLOWAY'S OINTMENT.

This wonderful Ointment acts like magic in relieving

and curing all sores, wounds, bad legs, ulcers, and

eruptions of the skin; when rubbed on the surface it pene-

trates and purifies each tissue on its passage, and exerts

the most wholesome influence over the internal struc-

tures. It heals by cleansing all animal fluids with which

it comes in contact, and therefore promotes a sound and

permanent cure.

Gout and Rheumatism.

To sufferers from the racking pains of Rheumatism and

Gout this Ointment will prove invaluable. After fric-

tation with warm water the soothing action of this Oint-

ment is most remarkable; it seems at once to lessen in-

flammation, ease pain, reduce the swelling, restore

natural circulation, and expels the disease. For the

above complaints Holloway's Ointment and Pills are in-

fallible specifics.

Diphtheria, Bronchitis, Sore

Throats, Coughs and Colds.

This class of diseases may be cured by well rubbing the

Ointment, three times a day, upon the throat, chest,

and back of the patient. It will soon penetrate and dry

up the inflamed surface, and by its action it will

immediately relieve, in all stages of Influenza, Colds, and

Bronchitis. This treatment may be followed with safety

and safety; indeed, it has never been known to fail.

All Varieties of Skin Diseases,

Scrofula and Scurvy.

This Ointment is a certain cure for Ringworm, Scurvy,

Scrofula or King's Evil, and the most inveterate skin

diseases to which the human race is subject. They

must be treated with a safer or more speedy remedy than

Holloway's Ointment, assisted by his celebrated Pills,

which act so powerfully on the constitution and so puri-

fy the blood that these disorders are completely ar-

rested from the system, and a lasting cure obtained.

Dropsical Swelling.

Beware of this dangerous and stealthy complaint, which

frequently creeps upon us by slight uneasiness and

tingling pain, of which little or no notice is taken until

the legs begin to swell. The cause of the evil must be

looked for in the liver and stomach; therefore, to

work earnestly, by taking Holloway's famous Pills ac-

cording to the printed instructions, and rubbing the Oint-

ment very effectively over the pit of the stomach and

right side, where those organs lie. Most dropsical

cases will readily yield to the combined influence of the Oint-

ment and Pills.

Fles, Fistulas, and Internal Infam-

ation.

These complaints are most distressing to both body and

mind, false delicacy concealing them from the most in-

imate friends. Persons suffer for years from Piles and

similar complaints when they might use Holloway's Oint-

ment with instant relief, and effect their own cure with-

out the annoyance of explaining their ailments to the

Physician. The Pills greatly purify the blood, regulate its circulation

renew diseased structures, and invigorate the whole sys-

tem.

Disorders of the Kidneys, Stone

and Gravel.

Are immediately relieved and ultimately cured if this

Ointment be well rubbed, twice a day, into the small of

the back, over the region of the kidneys, to which it will

gradually penetrate, and in almost every case give

prompt relief; but perseverance will be necessary to

effect a thorough cure.

Both the Ointment and Pills should be used in

the following cases:—

Bad Legs, Chapped hands, Scalds,

Burns, Contracted and Sore Nipples,

Rheumatism, Stiff Joints, Sore Throats,

Elephantiasis, Skin Diseases, Scurvy,

Bite of Mosquitoes, Pustules, Sore-heads,

Corn-blebs, Gout, Granular Swellings,

Chilblains, Ulcers, Wounds,

Chancres, Piles, Rheumatism,

Sold at the establishment of Professor Holloway, 224,

Strand, near Temple Bar, London; and by all

the Dispensaries and Dealers in Medicines throughout the

civilized world, at the following prices:—Is. 12d., 2s.

6d., 1s., 2s., 3s., 4s., 5s., 6s., 7s., 8s., 9s., 10s., 11s., 12s.

There is a considerable saving by taking the larger

sizes.

A B.—Directions for the guidance of patients in every

branch are affixed to each Pot.

defy

"Cariboo Sentinel."

THE Undersigned, Proprietors and Publishers

of the "CARIBOO SENTINEL," in an-

nouncing to their friends and the public that

their arrangements have been completed for

issuing the first number on or about the first

day of May next, would most respectfully

solicit a continuance of the patronage and sup-

port heretofore bestowed on them.

While intimating their determination of pub-

lishing twice, instead of once a week as for-

merly, the undersigned would draw attention

to the very efficient postal system now estab-

lished throughout British Columbia, which

will enable them to forward the SENTINEL to

nearly every Mining Camp in the Colony, par-

ticularly to the newly discovered Mines on the

Columbia, from whence they will be in con-

stant receipt of the latest and most reliable

intelligence, thus rendering the columns of

their paper a most desirable medium of pub-

licity for the business public.
